The building occupied by the bank was erected in 1865 and was owned by Frederick May. About a year ago Maurice Rosenberg, president of the bank, undertook the acquisition of the property, which occupied several months, as the heirs to the estate were scattered over 40% this country and Europe. Finally, after much correspondence, the necessary legal formalities were satisfied and the building became the property of the bank. Since then the structure has been thoroughly 25% rebuilt and made into a bank and office building.

GRAIN AND PROVISIONS.

Quotations furnished by W. B. Hibbs & Co., members of the Chicago Board of Trade, Hibbs Building, 725 Fifteenth street northwest. Chicago, Jan. 3.—WHEAT—The local wheat mar-ket opened ½ to % higher, with buying by local set opened % to % higher, with buying by local shorts and commission houses. The selling was on recording orders and by holders of upward indemnities. The Northwestern markets were as strong as our own, including Winnipeg. Cash wheat at Minneapolis was in good demand from the mills. There was deeldedly more interest taken in cash wheat in our own market, and we know of at least 100,000 bushels sold for shipment to country mills. The market is under no pressure from acqual wheat. bushels sold for shipment to country mills. The market is under no pressure from actual wheat, our local stocks are in few hands, and speculative sentiment leans decidedly toward higher prices, while the short sellers realize that prices of cash property are being discounted largely on the belief that reserves are large and will tell later in the crop year. Local car lots, II, with 21 estimated for to-morrow. CORN—The market has been a small affair, with narrow range in prices, which were undoubtedly kept firm by the strength in wheat. Some buying of July by commission houses and many by local operators. Selling was scattered. Cash prices were a shade higher early, but eased off to Friday's values. Local car lots, 289, with 366 estimated for to-morrow.

OATS-The market was firmer early, but eased

Dimes Grow to Dollars

Don't neglect saving the small amounts. Many people think One Dollar too small to start a bank account.

One Dollar makes a good start—the second one comes easier.

Dimes grow to Dollars faster than Dollars make Dollars. It's because they are small and easy to save. Save two Dimes a day and you will never miss them.

The place to keep your money is this bank, where it earns 3%, compounded every 6 months.

THE BEST CHANCE IN YOUR LIFETIME.

Here is a negotiable security of the highest class-absolutely safe and certain-more conservative than any other-protected by more drastic laws.

Dividends on this class of stock usually run from 10 per cent to 100 per cent. Success already assured by business in hand and an enormous patronage waiting-\$5,000,000 of business ready for the start.

Such an opportunity comes not even once in a generation; then a few "insiders" take the entire issue. There is not enough now for everybody, as 75 per cent of the stock was sold out West before I secured this opportunity for Washing-tonians.

The price has already advanced 150 per cent—will go up another 50 per cent mid-January, and is reasonably certain to make you 100 per cent before 1911. This will be an equally good investment for an odd \$25 or for your entire fortune.

I have refrained from offering the Washington public any securities until I could handle a proposition like this. After a search of three years, this opportunity has presented itself, and I have no hesitation in recommending it to the most conservative bankers, trustees, guardians, and private investors. Sales after the 15th of January will be at an advance, and present price is not guaranteed from one day to the

The Safest Investments Are those that do not fluctuate during dis-turbed conditions of the money or stock markets. First deed of trust notes (first mortgages), well secured on real estate in the District of Columbia, constitute "gilt-edge" investments. They do not depend upon the financial responsibility of indi-viduals or corporations for their stability, and are exempt from taxation as personal property. We can supply such investments in amounts from \$600 upward. Send for booklet, "Concerning Loans and Investments."
